

NuCedar Mills®

finely crafted exteriors
A Jain Company

Vertical Siding

Each of NuCedar's three vertical siding styles capture the historic character of classic architectural designs.

Product Features

- Creates distinctive shadow lines
- Can be used as an accent or on the whole house
- Shiplap and Channel Rustic's self aligning boards provide an easy installation
- Available in Smooth or RoughSawn™ surface textures
- Factory finished in 9 traditional colors and hundreds of custom color options
- Solar-reflective properties in NuCedar's coating minimize expansion and contraction, permitting dark colors to be used in warm climates
- Lifetime Limited Warranty on substrate and finish
- Exceptionally Low Maintenance
- Installs easily, no caulking

The Look That Lasts

NuCedar Mills' exterior cladding products accurately replicate the past's aesthetics, while delivering the future's durability. Milled from EX-Cel® cellular PVC, the same material that has become highly popular in exterior trim, NuCedar offers a complete line of products including: Classic R&R Shingles™, Board and Batten, Channel Rustic, Shiplap, Trim, Mouldings, Classic Clapboard® and Classic Beaded Weatherboard™.

A World of Colors

Having your home the color you want is easier than ever. NuCedar siding and trim products are pre-finished with a polyurethane coating from Sherwin-Williams®. This coating bonds to the cellular PVC substrate and offers solar-reflective qualities, which may reduce cooling costs. This process provides the most durable finish on the market, ensuring your home will look great for years to come.

Shiplap

Based on ship building techniques, NuCedar's Shiplap has a 1/2" overlap creating a flush joint.

Board and Batten

NuCedar's Board and Batten features alternating wide boards and narrow battens which create a classic, rustic look.

Channel Rustic

NuCedar's Channel Rustic has a 1/2" overlap and a 1" channel when installed.

The Better Warranty

NuCedar's Lifetime Limited Warranty is one of the best in the business. The Material Warranty protects against rotting, delamination and damage caused by hail or insects, while the Finish Warranty covers against chipping, peeling or cracking. For the ultimate peace of mind, both the Material and Finish Warranties last for as long as you own your home and include labor replacement for the first full year of ownership*.
