

New & Improved Warranty

Every day we look at ways to improve the NuCedar experience for the homeowner and installers. We want to set their minds at ease knowing that the product they select is going to last. That is why we moved NuCedar products from our 25-year warranty to **Limited Lifetime Warranty**. You can find the details by clicking [here!](#)

Modern Shiplap

Picking out and installing your Modern Shiplap is as easy as 1-2-3.

When Ordering, pick out your:

1. Dimensions
 - a. Widths: 4", 6", 8", or 10"
 - b. Gap: Flush, 1/8", 1/4", or 1/2"
 - c. Length: 8ft, 10ft, 12ft, or 16ft
2. Texture: Smooth or Roughsawn
3. Color: Chose from our 14 standard colors or you may want a custom color (some restrictions apply)

You do not even need to worry about fasteners, because they will come with the product and will include a matching plug to cover up the screw head.

So, once it arrives on the job site, it is just go, go, go!!

For more details on Modern Shiplap or our other NuCedar Vertical Siding options, visit our Vertical Siding Page by clicking [here](#).

Happy Labor Day

We celebrate Labor Day on September 7th this year and we want to Thank all of the Workers for their dedication to social and economic achievements.

You all continue to contribute to the strength, prosperity, and well-being of our country!

Employee Spotlight

We would love for you to meet some of our team members, so going forward on our newsletter, we will introduce you to one of our own!

Meet our Lead Shipper & Receiver, Jesus Vega aka "Vega", who is coming up on his 10-year anniversary with Jain. We truly enjoy his company and his great sense of humor, even if it is scaring the Bejesus out of the office team with his tricks.

Vega loves spending time with his family, especially the grandbaby (soon to be babies)!! We also think he enjoys driving this brand-new combi!! Believe me, he does not like to share it. Thanks, Vega, for all your hard work and dedication to the Jain team.

Testimonials

Listening to Michael Baldwin, owner of Baldwin Homes, tells us why he chose NuCedar to renovate his own family home is very inspiring. We love that he was able to incorporate us into his family.

Find out why Michael uses NuCedar as his siding, not only for his customers, but for his own home.
